

## 6.5. Photoshoot Types Screen

### Photoshoot Types Screen - Details

- ▶ The [Photoshoot Types Screen](#) is used to navigate to the [Add Photoshoot Type Screen](#) and to view and maintain a photoshoot type on the system.
- ▶ The photoshoot type name is required to view a photoshoot type on the system.

### Photoshoot Types Screen - Layout

The screenshot shows a web application window titled "Photoshoot Types". At the top left is a search bar labeled "Search:" with a text input field (callout 1). To the right of the search bar is a button labeled "Add Photoshoot Type" (callout 3). Below the search bar is a data grid (callout 2) with two columns: "Name" and "Description". The grid contains two rows: "Call Out" and "Studio Shoot". Each row has three buttons to its right: "View" (callout 4), "Edit" (callout 5), and "Delete" (callout 6). The "Call Out" row is highlighted in blue. Below the grid is a large grey rectangular area.

| Name         | Description                             |        |        |          |
|--------------|---|--------|--------|----------|
| Call Out     | This is a photoshoot outside the studio | 4 View | 5 Edit | 6 Delete |
| Studio Shoot | This is a photoshoot in the studio      | View   | Edit   | Delete   |
