

## 4. SERVICES SUB-SYSTEM

### 4.7. View Service Types Screen

#### Screen Controls

#### View Service Type Screen - Details

- ▶ The [View Service Type Screen](#) is used to view a service type to the system.

#### View Service Type Screen - Layout

The screenshot shows a window titled "View Service Type" with a standard Windows-style title bar (minimize, maximize, close buttons). The window contains the following elements:

- Name :** A text input field containing the word "Event". A blue number "1" is positioned to the right of the field, and a green checkmark is to its right.
- Description :** A text area containing the text "These services are used for events only". A blue number "2" is positioned to the right of the text area, and a green checkmark is to its right.
- Edit :** A button with the text "Edit" and a blue number "3" to its right.
- OK :** A button with the text "OK" and a blue number "4" to its right.

## View Service Type Screen – Controls
