

8.2. Select Customer Screen

Select Customer Screen - Details

- ▶ The [Select Customer Screen](#) is used to select a customer to place an order for.
- ▶ The customer name is required to search for a customer on the system.

Select Customer Screen - Layout

The screenshot shows a window titled "Customer Order" with a standard Windows title bar (minimize, maximize, close buttons). The main content area has a header "Select Customer" in a grey bar. Below the header, there is a search section with the text "Search : " followed by a text input field (labeled 1) and a button labeled "New Customer" (labeled 3). Below the search section is a table (labeled 2) with the following columns: First Name, Last Name, ID Number, Email Address, Phone Number, and Action. The table contains five rows of customer data. The first row is highlighted in blue, and the "Action" column for the first row contains a button labeled "Select" (labeled 4). Below the table is a large blue rectangular area.

	First Name	Last Name	ID Number	Email Address	Phone Number	Action
