

5. PRODUCTS SUB-SYSTEM

Search/Delete Product Types

Screen Controls

Product Types Screen - Details

- ▶ The [Product Types Screen](#) is used to navigate to the [Add Product Type Screen](#) and to search for and maintain a product type on the system.
- ▶ The product type name is required to search for a product type on the system.

Product Types Screen - Layout

The screenshot shows a web application window titled "Product Types". At the top left, there is a "Search:" label followed by a text input field (callout 1) and a blue number 2 below it. To the right of the input field is a button labeled "Add Product Type" (callout 3). Below these elements is a table with three rows: "Event", "Photoshoot", and "Order". The "Event" row is highlighted in blue. The table has columns for "Name", "Description", and three action buttons: "View" (callout 4), "Edit" (callout 5), and "Delete" (callout 6). The "Description" column for all rows contains the text "These products are ...". Below the table is a large grey rectangular area.

Name	Description			
Event	These products are ...	4 View	5 Edit	6 Delete
Photoshoot	These products are ...	View	Edit	Delete
Order	These products are ...	View	Edit	Delete

Tutorial

Description

- ▶ This tutorial will show you how to add a product type to the system.

Learning Outcomes

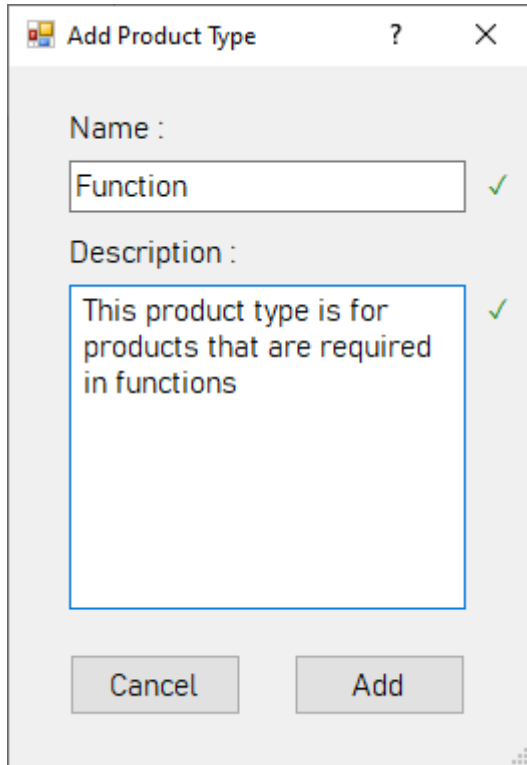

[AT THE END OF THIS TUTORIAL YOU SHOULD BE ABLE TO:](#)

1. Successfully add a new product type to the system.

Process of Execution

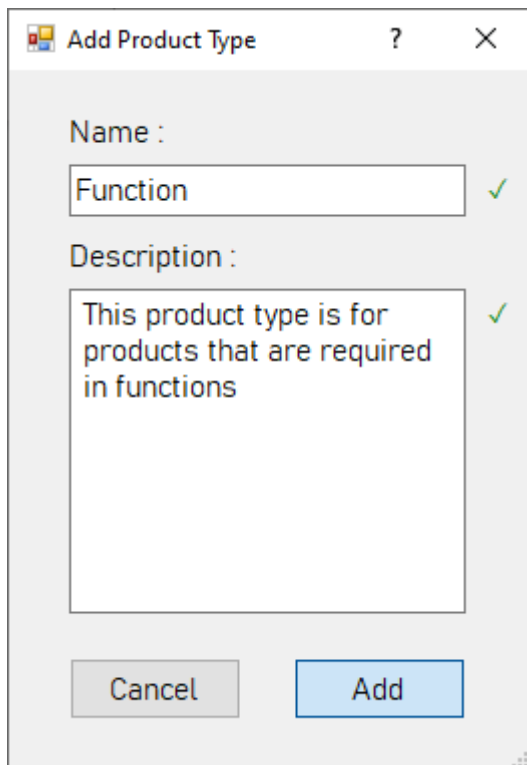

ADDING A PRODUCT TYPE TO THE SYSTEM:

1. Enter the product type's details into the textboxes on the [Add Product Type Screen](#).

The screenshot shows a dialog box titled "Add Product Type" with a question mark icon and a close button (X). It contains two input fields: "Name :" with the text "Function" and a green checkmark to its right, and "Description :" with the text "This product type is for products that are required in functions" and a green checkmark to its right. At the bottom, there are two buttons: "Cancel" and "Add".

2. Click the [Add Button](#).

This screenshot is identical to the previous one, showing the "Add Product Type" dialog box with the same input fields and buttons. However, the "Add" button is now highlighted with a blue border, indicating it is the active element.

Test Data

Label Name:	Test Data:
Name	Function
Description	This product type is for products that are required in functions.
