

7.5. Event Types Screen

Event Types Screen – Details

- ▶ The [Event Types Screen](#) is used to navigate to the [Add Event Type Screen](#) and to view and maintain a event type on the system.
- ▶ The event type name is required to view a event type on the system.

Event Types Screen – Layout

The screenshot shows a web application window titled "Event Types". At the top, there is a search bar labeled "Search:" with a text input field (callout 1) and an "Add Event Type" button (callout 3). Below the search bar is a data grid (callout 2) with two columns: "Name" and "Description". The grid contains two rows: "Picnic" and "Wedding". Each row has three buttons: "View" (callout 4), "Edit" (callout 5), and "Delete" (callout 6). The "Picnic" row is highlighted, and the "Edit" button for the "Wedding" row is also highlighted. The grid is followed by a large grey rectangular area.

Event Types Screen – Controls
