

7.6. Add Event Type Screen

Add Event Type Screen - Details

- ▶ The [Add Event Type Screen](#) displays the necessary details to add an event type to the system.
- ▶ All event type details, are required to add an event type to the system.

Add Event Type Screen - Layout

The screenshot shows a Windows-style dialog box titled "Add Event Type". It has a standard title bar with a question mark icon and a close button (X). The dialog contains two main input sections. The first section is labeled "Name :" and contains a single-line text box with the text "Baby Shower". To the right of the text box is a green checkmark. The second section is labeled "Description :" and contains a multi-line text area with the text "An event to celebrate a baby almost being born". To the right of the text area is a green checkmark. At the bottom of the dialog are two buttons: "Cancel" on the left and "Add" on the right. Blue numbers are overlaid on the image to identify specific controls: "1" is next to the Name text box, "2" is at the bottom right of the Description text area, "3" is next to the Cancel button, and "4" is next to the Add button.

Add Event Type Screen - Controls

No	Control Name	Description
1	Name Textbox	This textbox requires the type name of the event type.

2	Description Textbox	This textbox requires the description of the event type.
3	Cancel Button	This button cancels the process of adding the event type to the system.
4	Add Button	This button adds the new event type and its details to the system.
